If you have any questions about this training, please call Judy Oberhauser at 402-597-4932

Registration Deadline 9/23/2009

Presented by:
Anne M. Beninghof

TRAINING DESCRIPTION

Inclusion can work IF teachers are prepared with practical methods and strategies for differentiating instruction to meet the needs of all learners.

In this session, the presenter will share a simple approach to differentiation, based on research, that can be used across grade levels and content areas.

But, more importantly, the participants will learn dozens of creative instructional strategies that work for struggling students, gifted students, and all the students in inclusive classes!
