

Content Area Reading and Study Strategies

for Grades K - 3

There are certain keys that unlock the treasure of becoming a life-long proficient reader capable of comprehending all types of texts. This workshop will give a repertoire of ideas, activities, and strategies to help students with organizing, studying, and working with content area curriculum.

A focus on close reading and using evidence/textual support to back up answers and opinions will be part of the learning. Pat will share with participants very specific strategies, activities and follow-up assignments for literacy development in the content areas.

Presented by Pat Pavelka

Pat Pavelka is a national education consultant, teacher, and author. She works with students from kindergarten through 12th grade and has instructed graduate and undergraduate college level courses.

Pat has worked with educators and parents in 48 states to increase the literacy achievement of all students. She has written 12 books including topics on guided reading, differentiation, and questioning to activate higher level thinking.
